# boardville2020

April 26-29, 2020 - Las Vegas

## Event Overview

Boardville 2020 is our fourth annual conference for customers and partners at the cutting edge of Business Decision-Making.

Last year's regional events saw more sessions, speakers, and engagement than ever before. We listened to your valuable feedback and in 2020 we are excited to announce that we will be hosting ONE global Boardville conference in Las Vegas, Nevada, USA, where we will be combining our US, European, and Asian events into one, which is sure to be the biggest opportunity to meet, network, share ideas, and celebrate with other Board users.

Boardville 2020 will be a full three-day event providing more sessions than ever before. It will be full of engaging keynotes, interactive workshops, presentations, and entertaining networking activities. Explore the power of decision-making in the digital era, discover Board's most-innovative solutions, and gain valuable insights and in-depth knowledge from industry leaders and peers.

This year, for the first time, we will also be opening our Partner Pavilion, allowing Board partners to network with the attendees, provide insight through their expertise, and share knowledge.
